DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2,3 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 8, lines 12-13, "the body having separate non-elastic lock portions, one on each side of the terminals so the terminals are between the lock portions", is unclear. The lock portions (15) shown in the drawings (fig. 3) are "not" on each side of the terminals. Correction is required.

Allowable Subject Matter

Claim 8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 9-11 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: regarding claim 8, the Examiner agrees with Applicant's arguments, that Seto does not disclose the "lock portion extending above the opposed surface of the lower portion", and regarding claim 9, patentability resides, at least in part, in the pressing member, lock portions and the fixed and flexible portions being arranged so that ***(a) while the pressing member is pushing the object into the mouth none of the contacts of the object***

contact any portions of the terminals, in combination with the other limitations of the base claim..
